Mounting instructions for
ADVERTISING PLATE for FRONTGRILL

The advertising plate will cover the Volvo logo of your vehicle. If you want you can remove the Volvo logo from the frontrill and mount it into lower section of your vehicle.

1. Take your vehicle to a dry place.

2. Clean the mounting area on the frontgrill with brake cleaner or similar and rub the surface clean from any grease and dirt.

The mounting surface must be completely clean!

3. Mount the plate on the frontgrill of the vehicle. Roll/press the plate against the frontgrill several times in order to attach the full are of the tape.

4. Remove the protection foil of from the plates surface and mount your logo.

Read this first if you want to paint the advertising plate!

The advertising plate is made ABS-PMMA plastic, which can be painted with acrylic based paints. For painting ask instructions from your paint supplier for ABS-PMMA material.The VHB tape which is mounted on the plate will last the heat of the paint line owen.

Remember to remove the protective foil before painting!
