

LaserEye

Automatic Spoiler Adjustment

Commercial Vehicle Fuel Saving Devices

Fuel Saving FACTS!

Running a high volume trailer with a "standard" blade adjusted to 4.0m could be **costing you** in excess of **£3,500.00 per year, per truck** in fuel.

Installing a Kuda High Volume air management kit to that vehicle will aid in eliminating the drag from the bulk head and **save you money on fuel.**

The High Volume AMK will **pay for itself** in as little as **25 weeks**. In the first year you will have a potential **saving of £1,900.00 per truck** and the air kit fully paid for!

The Figures

No Kuda AMK Installed

Tractor Trailer set up of no AMK with 4.6m trailer

| | |
|---|------------|
| Average Fuel Consumption | 9.00 MPG |
| Total Miles Travelled by vehicle in a year. | 100,000 |
| Total Gallons of Fuel used in a year. | 11,110 |
| Total cost of fuel for a year. (Based on cost of 7.94GBP per gallon) | £88,213.00 |

For every 200mm of exposed bulk head your fuel consumption could increase by a **HUGE 3%**!

Kuda AMK Installed

Tractor Trailer set up of 4.5m AMK to 4.6m trailer

| | |
|---|------------|
| Average Fuel Consumption | 9.36 MPG |
| Total Miles Travelled by vehicle in a year. | 100,000 |
| Total Gallons of Fuel used in a year. | 10,666 |
| Total cost of fuel for a year. (Based on cost of 7.94GBP per gallon) | £84,688.00 |

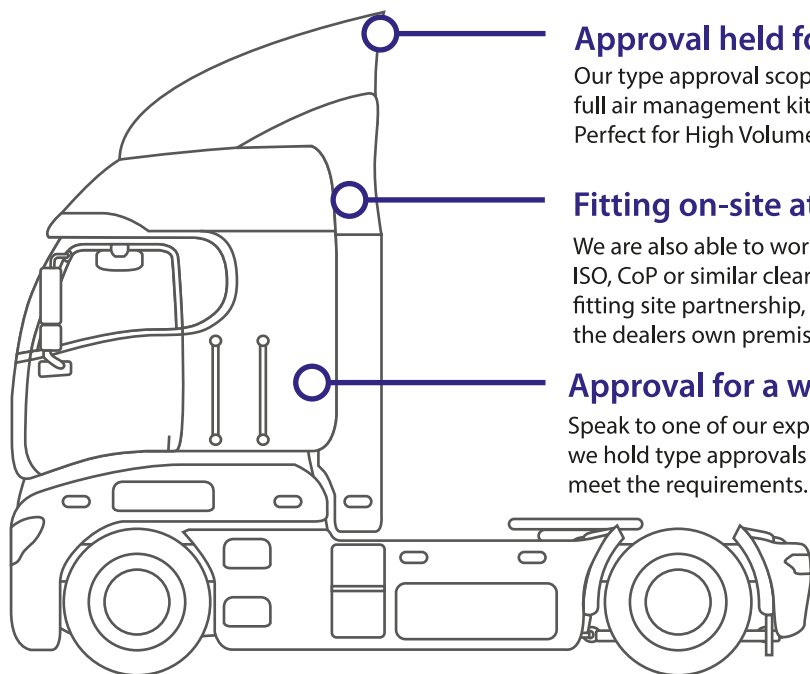

Potential Savings per truck, per year of £3,525.00

Type Approval

Speak to our experts, we have you covered

Here at Kuda UK LTD we are proud that we have been Audited and Approved by the VCA for CoP (Conformity of Production) Clearance. This Clearance enables us to offer fully Type approved products and fitting services across a wide range of vehicles.

Approval held for up to 4.6m

Our type approval scope covers the fitment of a full air management kit to a height of 4.6m. Perfect for High Volume trailers.

Fitting on-site at Kuda UK, Ipswich

We are able to work closely with dealers holding ISO, CoP or similar clearance to achieve a "satellite" fitting site partnership, enabling approved fitting at the dealers own premises.

Approval for a wide range of trucks

Speak to one of our experts to find out which chassis we hold type approvals on and how we can help you meet the requirements.

The CoP Clearance just further reinforces the quality of our products and services, when you purchase from Kuda UK you can rest assured that product you receive has been manufactured under the highest standards and followed our strict Quality Control processes.

Our in house Type Approval experts are able to advise on any questions you may have regarding the fitment of any of our products prior to registration and how this may effect a vehicles base approval.

EMC REG 10 Approvals

- ✓ Microwaves
- ✓ Fridges
- ✓ Cameras
- ✓ Handbrake Alarms
- ✓ Inverters

We are able to fit a huge range of electronic equipment covered under EMC Reg 10 as part of our NSSTA and Whole Vehicle Type approval clearances.

So if you need a microwave, fridge, dash cam, reversing alarm or anything like it fitting to a vehicle prior to registration we are likely to have you covered.

We are able to issue Stage 2 Certificates of Conformity for work carried out at our assembly plant here at Kuda for a wide range of vehicles and products.

Our **market leading,**
super sleek, aerodynamic
range of **air management kits.**

Our High volume iAM kits have been designed from the ground up to not only look great, but improve the aerodynamic properties of the vehicle like never before.

↑ UP TO 4.6M

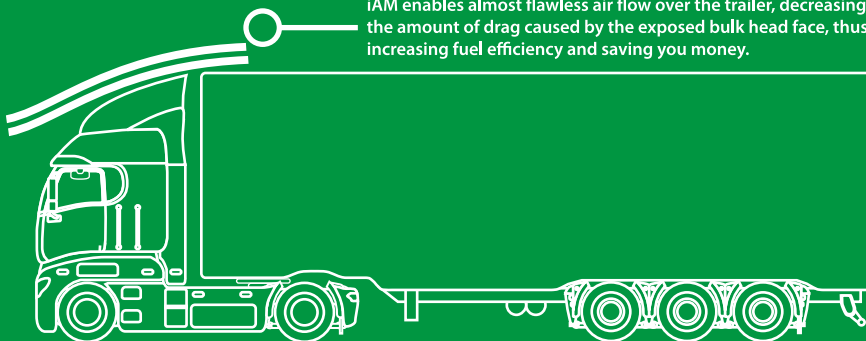

Improved Air Management

Introducing iAM, our most advanced air management kit to date.

With over 30 years of experience in the commercial vehicle aerodynamic industry our team of engineers have combined our already highly efficient air management kits with a totally re-engineered design, producing (we think) one of the industries best looking fuel saving devices.

iAM has been designed from the ground up with optimum fuel efficiency in mind, whilst keeping the all important cost of the kit down. iAM's new shape enables it to be fitted to almost any truck easily and quickly. iAM can be used with existing factory equipment or supplied as a full kit. Picking up of existing factory fixing points enables us to drive down iAM's fitting time but also keeping the all important structural integrity.

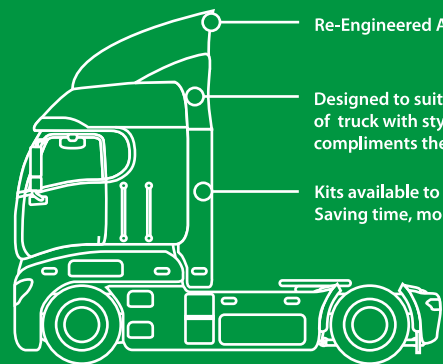

iAM enables almost flawless air flow over the trailer, decreasing the amount of drag caused by the exposed bulk head face, thus increasing fuel efficiency and saving you money.

Re-Engineered Aerodynamic Shape

Designed to suit Almost Every Make of truck with styling which compliments the vehicle design.

Kits available to suit factory uprights Saving time, money and fitting costs.

LaserEye

Automatic Spoiler Adjustment

100% Automatic Roof Spoiler Adjustment

- ✓ Zero driver input required
- ✓ Live angle adjustment
- ✓ Easy to fit
- ✓ No need to climb up the back of cab
- ✓ Fully supported warranty
- ✓ Fitting service available

How does LaserEye work?..

Reverse vehicle towards trailer as normal. LaserEye will automatically start looking for the trailer.

Once LaserEye detects the trailer it will automatically adjust the spoiler to the optimum height.

Once coupled LaserEye will adjust intelligently every 2 minutes to maintain optimum airflow.

Decouple the trailer and LaserEye will lower the spoiler for optimum airflow whilst driving solo.

Introducing LaserEye, our revolutionary truck spoiler automatic adjustment system. 100% Auto-adjustment, 100% of the time. Guaranteed to help you save money on your fuel bill!.

Our technical development team have been hard at work perfecting our revolutionary spoiler adjustment system, LaserEye. LaserEye is designed to make saving you money on your annual fuel bill as easy as possible. By removing the need for the driver to adjust the roof deflector, LaserEye is able to guarantee that the optimum spoiler height and angle will be set for every trip your vehicle makes.

With LaserEye there is no need for any driver input when adjusting the spoiler, just reverse the vehicle up to the trailer and LaserEye takes care of the rest, adjusting the spoiler to the correct height.

With the complete LaserEye system starting at just £1200.00 (exc VAT). The kit is affordable and can be fitted to any of our adjustable air management kits or indeed retro-fitted to any adjustable spoiler system from almost all manufactures.

iAM To Suit DAF XF 106 Space Cab, High Volume AMK To Suit Factory Uprights

Part Number - 103DAFXFSC-TOP

Supplied as standard in DAF White, can be produced in any solid RAL colour.

Comes supplied in kit form with all brackets and fixings.

Top Section Only

iAM To Suit Iveco Eurocargo Low Roof Sleeper-Full AMK

Part Number - 103IVECR

Supplied as standard in Iveco White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit Iveco Eurocargo Low Roof Sleeper-Top Spoiler

Part Number - 103IVEC-TOP

Supplied as standard in Iveco White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

Top Section Only

iAM To Suit MAN TG3 TGM, TGL TN Cab High Volume AMK. Full Kit- Short Uprights

Part Number - 103MANTGMLTN

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TG3 TGS, TGM, TGL TN Cab High Volume AMK. To Suit Factory Uprights

Part Number - 103MANTGSTN-TOP

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

Top Section Only

iAM To Suit MAN TG3 TGS TN Cab High Volume AMK. Full Kit

Part Number - 103MANTGSTN

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TGS L Cab High Volume AMK. Full Kit

Part Number - 103MANTGS

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TG3 TGS, TGM, TGL, TN Cab High Volume- Blade Only

Part Number - 103MANTGSBTN

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TG3, TGX GM Cab High Volume AMK. Full Kit.

Part Number - 103MANGM

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TG3, TGX GM Cab High Volume AMK. To Suit Factory Uprights.

Part Number - 103MANGM-TOP

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

Top Section Only

iAM To Suit MAN TG3 TGX GM Cab High Volume - Blade Only

Part Number - 103MANGMB

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TGS L Cab High Volume. - Blade Only

Part Number - 103MANTGSB

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TGX XLX High Volume AMK To Suit Factory Uprights

Part Number - 103MANXLX-TOP

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

Top Section Only

iAM To Suit MAN TGX XLX High Volume - Blade Only

Part Number - 103MANXLXB

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TGX XLX High Volume AMK Full Kit

Part Number - 103MANXLX

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TG3 TGX GX Cab High Volume AMK Full Kit

Part Number - 103MANGX

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TG3 TGX GX Cab High Volume AMK. To Suit Factory Uprights.

Part Number - 103MANGX-TOP

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

Top Section Only

iAM To Suit MAN TGX GX Cab High Volume - Blade Only

Part Number - 103MANGXB

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TG3, TG2 TGS, TGM, TN L, Cab Top Spoiler

Part Number - 103MANTGSTOP

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TGX XXL Cab High Volume AMK Full Kit

Part Number - 103MANXXL

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TGX XXL Cab High Volume - Blade Only

Part Number - 103MANXXLB

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TGX XXL Cab High Volume AMK To Suit Factory Uprights.

Part Number - 103MANXXL-TOP

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

Top Section Only

iAM To Suit MAN TG3, TGS, TGM TM Cab High Volume AMK. Full Kit.

Part Number - 103MANTGSTMF

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.

iAM To Suit MAN TG3 TGS, TGM, TGL TM Cab High Volume AMK. To Suit Factory Uprights

Part Number - 103MANTGSTM-TOP

Supplied as standard in MAN White, can be produced in any solid RAL colour

Comes supplied in kit form with all brackets and fixings.
